Harold,

Have read all your books except the two I'm now ordering. Got to have these to complete my set.

Most fascinating and logical reading I've done on J.F.K. Just finished "Never again". — Brilliant!

Having served 16 months in Korea and having guns of my own, especially bolt actions, I told everyone I knew by Nov. 25th 1963 that from what I saw and heard on the media, that there was no way one person could have been the shooter.

Thank God for people like yourself to not let this travesty be forever buried.

Just out of curiosity, if you have time to answer, what is your opinion of David Lifton's "Best Evidence"

Sincerely,
Gerald Swope
